

Enduracor™

Artistic Finishes is proud to present our exclusive new line of water proof core accessories. Enduracor™ is durable, water resistant and a versatile solution for your flooring projects. This product line features our exclusive 4 layer design, making it one of the most technologically advanced accessories on the market.

DURABLE | WATER-RESISTANT | STAINABLE | COST EFFECTIVE

WATER PROOF CORE

Artistic Finishes' exclusive, water proof core flooring accessory technology. The Water Proof Core is created with only the highest quality materials combined using a thermoplastic, injection molding process to create a water proof flooring accessory solution.

TRACK INSERT

Provides the installer the option to securely attach the accessory into place with the track system. It also offers more surface area for the adhesive to have contact with the accessory and underlayment; ensuring a strong hold to the subfloor.

ADHESIVE BACKER

Produces a high bond strength that acts as a sealant and ensures a reliable hold to withstand typical daily use.

DECORATIVE LAYER

This layer has the ability to complement virtually any flooring line and currently blends to thousands of manufacturers' flooring lines including hardwood, tile, WPC, LVP and LVT.

TOP COAT FINISH

Using our nanotechnology and ultraviolet curing process, the highly water-resistant finish and exclusive top coat is created. Its resilience against liquids creates a reliable barrier, shielding the entire product.

DURABLE

Provides high performance durability with 4 layers of protection.

WATER-RESISTANT

Eliminates the chance of moisture absorption.

STAINABLE

Blends to your current flooring.

COST EFFECTIVE

Is less expensive than traditional wood accessories.
