

## What has changed?

All hardwood flush and overlap stair nosings and reducers are updated to the new profiles. Enduracor is unaffected.

Exceptions include the following species: ***Acacia, Strand Eucalyptus, Bamboo (All Types)***. These will continue to use current part numbers until a future date.

## How to order?

AFI part numbers are broken up into 3 parts. For example, 5639578009, can be shown as follows:

**56395**    **78**    **009**  
 Floor ID    Length    Profile #

**Floor ID** links the floor to the molding.

**Length** in inches.

**Profile #** corresponds with the shape of the molding.

Use the table to the right to find the new part number:  
 5639578**709**.

## What is new?

We have also added a line of **2MM Flush Square Nose** profiles to expand our nosing looks to fit your customer's needs.

## Profile/Thickness Chart

| Thickness/Style | Flush Stair Nose | Flush Reducer | Flush Square Nose (2MM Radius Edge) | Reducer Overlap | Stair Nose Overlap | Luxury Stair Nose (1 1/16" Nosing) | Luxury Square Nose (1 1/16" Nosing) |
|-----------------|------------------|---------------|-------------------------------------|-----------------|--------------------|------------------------------------|-------------------------------------|
| <b>1/4</b>      | 723              | 722           | 724                                 | 747             | 744                |                                    |                                     |
